Making budget decisions which result in better student success has become an even higher priority as a result of the college’s participation in Achieving the Dream. We are putting our money where our priorities are, which is student success!

The Tribe Has Spoken…
"I was introduced to diversity and to accept and embrace differences."
"[the new] Buildings and the technology used to help the environment go green."
"Many resources for new students."
"Class discussions are great, especially in Political Science 1 and English 101."
"Instructors and staff are very helpful."
"There is a really good program for disabled students."
"I like the community feeling and feeling like everyone knows each other."
"I had to complete the FAFSA online, it was simple and self explanatory. I prefer doing everything online so this made the process very convenient. "The real feeling of the help to succeed is demonstrated here (LAC)."

To keep our students’ torches burning, we should have...
- Engagement: “More activities like fairs, festivals, guests, etc.”
- Communication: “Resource/information bulletins or announcements.”
- Student Services: “More offices open on Fridays”
- Curriculum: “I would like to see more variety of online classes.”
- Increased IT support: “Computers are always down or not working.”
