UNIT PLAN “PART A”  
Program/Pathway Update

Program/Pathway: Business Office  
Date: 11/16/2012

Our Mission: Los Angeles Harbor College fosters learning through comprehensive programs that meet the educational needs of the community as measured by student success, personal and institutional accountability, and integrity.

1. Assessment of Program Review:

A few goals and objectives have been completed since the last Program Review:

- Updated vault and safe control procedures.
- Money counting weekly and control counting every 2-3 weeks.
- Purchasing of new printer and checks.
- Purchase of new coin sorters and bill counting machines.
- Updated cash handling procedures.

Some objectives are ongoing:

- Installation of a security camera to restrict access to the vault.
- Reorganization and redistribution of workloads.
- Review Business Office policy and procedures.
- Increase cross training to provide better service.
- Begin use of a new software for off-line collection.
- New laser checks for miscellaneous accounts.
- Scanning of Business Office documents. It is not completed/ongoing.

The Athletics department and other Student Services areas have continued to increase the workload of the Business Office.

2. Activities to address program needs:

The Business Department is working on improving procedures in the office due to an internal audit regarding Cafeteria, A.S.O., and cash procedures.

The coin counting machine and bill counting machine are increasing efficiency since the money from the parking meters and machines need to be counted. There have been some parking
machines report issues that need to be fixed to reconcile what is brought in with what the report states. There is a need for Parking Machine Maintenance contract.

With the addition of a security camera to the vault there will be a higher level of security added.

3. How are your program improvements associated with your SLOs:

The Business Office can now handle more types of payments for the students. In addition to the registration, A.S.O., and parking permit fees, the office now collects CDC payments, library fees, Financial Aid overpayments, and field trip payments. The Athletics department has tremendously increased the workload of the Business Office. For instance, starting July 2012 to January 2013, the Business office has processed and issued 213 checks for Athletics, it's 75% of the total number of checks issued for the ASO and Athletics combined.

Measurement of the SLOs is done by surveys and is also by the results and findings of internal audit conducted by the District Office.

4. Staffing requirements:

The vacant Accounting Assistant position needs to be filled. Overtime has been reduced yearly as follows:

2010-2011: Overtime = $2,676  
2011-2012: Overtime: $2,108  
Sub & Relief= $43,531  
Sub & Relief = $25,520

Fall 2011 overtime was $1,446.79 with this year it being reduced to $301.80.

The need for additional cashiers during rush times continues.

5. Technological requirements:

A security camera is needed for the vault. A laser printer for checks will soon be needed due to District Office changes being implemented.

6. Facilities requirements:

The Business Office could use a cosmetic face-lift, but the facility is adequate at this time.

7. Implementation plan:

The funding for purchasing and installing a camera for the vault is our top priority for 2013-2014 together with the hiring of the replacement for the vacant Accounting Assistant position to increase productivity, efficiency and security.

Non-cost Essential Activities

Unit: Business Office

<tr>
<td></td>
<td>Continue to develop new Business Office procedures.</td>
<td>In order to comply with the ever changing needs requiring the attention of the Business Office staff.</td>
<td>HCAS7</td>
</tr>
</tbody>
</table>

Justification:

All of these non-cost activities require time. With the current workload there is not much time to spend on any of these activities. With the Accounting Assistant position currently being vacant the other staff must take on additional work so that everything gets done. The scanning of the documents will allow the Business Office to save more records to the computer and become more efficient. The cross training of the employees will allow all the Business Office staff to be able to handle any issue that may arise and therefore will better serve the student or staff member who has an issue.
