

STUDENT HEALTH CENTER SERVICES

The LAHC Student Health Center provides services to CURRENT STUDENTS ONLY. Faculty, staff, and the community may not be seen at the Health Center.

Nurse Carole Stevenson RN, MSN, FNP-BC

Basic Medical Care

The LAHC Student Health Center is directed by a fully licensed and certified Family Nurse Practitioner who is dedicated to the college community. Our basic services include treatment of common medical problems, wound care, first aid, preventive care, health and psychiatric counseling, and laboratory services. You may receive general care by walking in or making an appointment. Some basic services are provided under the health fee paid at the time of registration for LAHC students. Other services such as prescription medication, lab tests, and immunizations have a fee.

Physical Exams

We provide physical exams for the following programs or events: LAHC School of Nursing, DMV, school transfers, employment, disabilities, Metro city bus pass, and sports. All physicals are done by a licensed and certified M.D. on Wednesdays from 10:00am – 12:00pm. A **preliminary visit** must be completed before a physical exam is scheduled.

Laboratory Services

The Student Health Center provides services such as full blood profiles, urinalyses, throat cultures, pregnancy testing, titers, and HIV testing. All lab tests are drawn on site by the Nurse Practitioner and sent to Quest Diagnostics for analysis. There is a fee for most lab tests.

Immunizations

The following is a list of immunizations we provide at our cost:

- **Hepatitis A**
- **Hepatitis B**
- **TWINRIX Hepatitis A&B**
- **TDAP (Tetanus)**
- **MMR**
- **Polio**
- **Inactivated Influenza (“Flu” Vaccine)**
- **H1N1 Inactivated Influenza (“Swine Flu” Vaccine)**
- **Mantoux TB test**

Please visit our Immunizations page for more information on these vaccines.

Referrals

Other services can be provided **by written referral** from the Nurse Practitioner.
