Los Angeles Harbor College Wireless Network

To gain access to the campus wireless network via I.E. 7; please follow the steps described below.

Step 1: Please double-click on the “wireless network connection” icon on the windows desktop or click “START”, double-click “Control Panel”, double-click “Network Connections”, and then double-click “wireless network connection”.

![Control Panel](image-url)
Once opened the below window will show up and list the wireless connections available on campus. These are the only 2 connections you will see on campus. Highlight the desired connection and click on the “Connect”.

The following screen will appear while connecting to the chosen connection icon.
Once connected; you now able to close this screen.
Step 2: Start your Internet browser. When you get the below error please click on Tools then Internet Options

The Internet Options Window will appear. Please click on the “Advanced” tab and scroll down to the area that indicates “Use SSL 2.0”. Put a check mark in the box next to “Use SSL 2.0” and uncheck the box next to “Use SSL 3.0”. Click “OK”. 
Refresh your Browser and you will see the below window. Please click on “Continue to this website (not recommended)”. 

There is a problem with this website's security certificate.

- Click here to close this webpage.
- Continue to this website (not recommended).
- More information
You will then get the login page for the Harbor college wireless network. All potential users of the wireless network must have a student or faculty login account. Please refer to the student login instructions for the college lab computers or the faculty login instructions for the academic network.

Please click “Yes” to authorize the login process. Once authorized you are now able to browse the Internet.
