

Student FAQ

Here are a few questions you might receive from your students about the updated ATI TEAS that is being released on August 31, 2016. If you have additional questions, please reach out to us at comments@atitesting.com

1. I took the test prior to August 31, and need to re-test. What study materials should I use?

Because of the content updates that occurred for the ATI TEAS, the TEAS V preparation materials will not provide the tester with a comprehensive overview of the topics assessed. Individuals preparing for the ATI TEAS will want to purchase the ATI TEAS preparation materials.

2. What test do I need to take?

If you are taking the test prior to August 31, 2016 you will need to study and test on the TEAS V exam. If you are testing on or after August 31, 2016 you will study for the ATI TEAS.

3. What score do I need to achieve?

You will need to check with the health science program you are applying to for the required TEAS score for admissions.

4. What is the difference between the two tests?

The ATI TEAS will be similar in difficulty level to the previous version of the TEAS. Content updates were made to align with current education standards deemed important for entry level health science applicants to possess.

5. Can I use a calculator?

The ATI TEAS will allow for the use of a four function calculator. Please do not bring your own, as the calculator will be provided at the testing site.
