

This pattern of CSU general education requirements applies to students beginning Fall (or Summer) 1981 or later. Thirty-nine units of general education coursework, excluding the Statutory Requirement, may be certified by Harbor College as acceptable toward the bachelor's degree general education at a California State University. The student will have to complete 9 additional units of upper division coursework for G.E. after transfer. Beginning Spring 1987, courses to be used for Area A and B4 (Mathematics) must be completed with "C" grades or better.

A maximum of 30 units will be allowed in Areas "B", "C", and "D" collectively for certification. A minimum of 9 units must be completed in each of Areas "A", "B", "C", and "D" if the student wishes to have more than 30 units certified. If Areas "A" and "B" are not completed at time of transfer, the CSU campus may request proof that these subject requirements were cleared by high school coursework. Most universities will expect students to finish 60 transferable units with a minimum 2.0 gpa, usually higher.

Students must complete at least 12 units of coursework at Harbor College in order to have any work certified by Harbor College. Students not complying with the above minimum certification requirements must follow the catalog of the intended university of transfer in place of these requirements. Consult with a counselor. It is strongly recommended that students request certification through the Office of Admissions & Records before sending final transcripts to the university.
